	PAGE
Accountant, Report of Public.....	90
Accountant's Statement.....	91
Accounting, Foundry, Objects of.....	94
Acid Scrap for Basic Steel Castings.....	432
Acid Steel Castings Produced in Germany.....	433
Acid Steel Castings Produced in the United States.....	433
Acid Vs. Basic Steel for Castings.....	427
Acid Vs. Basic Steel for Castings, Discussion of.....	434
Adoption of Specifications for Foundry Scrap.....	291
Advantages and Disadvantages of the Electric Furnace for Steel Castings.....	353
A. F. A. Advisory Committee to the United States Bureau of Standards, Discussion of Report of.....	561
A. F. A. Advisory Committee to the United States Bureau of Standards, Report of.....	558
A. F. A. Committee on Foundry Costs, Report of.....	114
A. F. A. Committee on Foundry Scrap, Report of.....	273
A. F. A. Committee on Foundry Scrap, Discussion of Report of.....	288
A. F. A. Committee on Safety and Sanitation, Report of.....	292
A. F. A. Committee on Specifications for Steel Castings, Report of	465
A. F. A. Committee on Standard Methods of Analyzing Coke, Report of.....	694
A. F. A. Representatives on the Conference Board on Training of Apprentices, Report of.....	134
A. F. A. Safety Code, Proposed.....	293
Agricultural Implement Foundries, Introduction of Molding Machines in.....	726
Airbrake Castings of Semi-Steel.....	586
Air Furnace, Dimensions of a 25-Ton.....	523
Air Furnace, Discussion of the 25-Ton.....	524
Air Furnace, Melting Ratio of.....	523
Air Furnace, Method of Charging.....	62
Air Furnace, Operating Cost of.....	522
Air Furnace, The 25-Ton.....	522
Air Furnaces, Use of the Crane in Charging.....	527
Alloy Steel Castings.....	459
Alloy Steel, Definition of.....	460
Alloys of Titanium, Production of.....	378

	PAGE
Alumina and Other Inclusions in Rolled Steel, Difference Between .....	444
Alumina, Discussion of Presence of, in Steel.....	458
Alumina in Cast Steel.....	446
Alumina in Rolled Steel, Characteristics of.....	443
Alumina in Steel, The Presence of .....	441
Aluminum, Rolled, Advantages of, for Match-Plates.....	644
Amalgamation of Incorporated and Unincorporated Bodies.....	41
American Foundrymen's Association, Incorporated, By-Laws of.	80
American Society for Testing Materials, Co-operation with, on Specifications for Steel Castings.....	466
Analyses of All Scrap Cupola Mixtures.....	534
Analyses of Cupola Mixture Containing Steel Scrap.....	535
Analysis of Coke, Standard Methods for Laboratory Samp- ling and .....	695
Analyzing Foundry Operations as a Basis for Improvement in Shop Conditions.....	162
Analyzing Shop Conditions, Summary of Method of Pro- cedure in .....	178
Annual Address by the President.....	25
Annual Report of the Executive Board.....	44
Annual Report of the Secretary-Treasurer.....	87
Application of the Match-Plate to Foundry Work.....	643
Apprentices, Conference Board on Training of, Report of A. F. A. Representatives on.....	134
Ash in Coke, Determination of.....	699
Attendance, The Registered.....	730
Banquet, Annual .....	24
Basic Lining for Electric Steel Furnace.....	316
Basic Steel Castings from Acid Scrap.....	432
Basic Steel Castings for Hydraulic Equipment.....	438
Basic Steel Castings, Manufacture of, in the Middle West.....	435
Basic Steel Castings Produced in Germany.....	433
Basic Steel Castings Produced in the United States.....	433
Basic Steel Foundry Practice, Slag Contamination in.....	428
Basic Vs. Acid Steel for Castings.....	427
Basic Vs. Acid Steel for Castings, Discussion of.....	434
Blow Holes in Soft Steel, Cause of.....	381
Board of Directors of the American Foundrymen's Association, Inc., Meeting of.....	76
Borings, Advantages of the Briquetting Method of Melting in Cupolas .....	641

	PAGE
Borings, Briquetting of, for Cupola Melting.....	635
Borings, Cast Iron Containers for Melting in the Cupola.....	638
Borings, Cast, Melting of, in Cupolas.....	633
Borings, Cost of Briquetting for Cupola Melting.....	641
Borings in Cupola Operations, Discussion of the Use of.....	633
Borings in Cupola Operations, Use of .....	633
Borings, Loss of, in Cupola Melting.....	642
Borings Melted in Cupolas in Boxes.....	639
Borings, Method of Melting in Stove Pipe Containers.....	634
Borings, Shrinkage of, When Melted in Cupola.....	637
Bottom Method of Gating.....	267
Boxes, Sheet Iron, for Melting Borings in Cupola.....	639
Brass Castings, How the Molding Machine Problem Was Solved by a Manufacturer of.....	717, 722
Brass Foundry Sand, Cleaning of,.....	568
Briquetting, Advantages of, for Melting Borings in Cupola.....	641
Briquetting of Cupola Borings for Cupola Melting.....	635
Bull Pinion, Method of Gating.....	481
Business Conducted for Profit.....	118
By-Laws, American Foundrymen's Association, Inc.....	80
By-Laws of American Foundrymen's Association, Inc., Dis- cussion of.....	42
By-product Coke in Foundries, Use of.....	708
By-product Coke for Semi-Steel.....	611
Car Body Castings, Advantages of Malleable Iron for.....	494
Car Castings, Gray Iron for.....	489
Car Construction, Discussion of the Uses of Malleable Iron Castings in.....	497
Car Construction, The Use to Which Malleable Iron Castings Can be Applied in.....	489
Car Wheel Mixtures, Effect of Coke on.....	692
Car Wheel Mixtures, Effect of High Phosphorus on.....	691
Car Wheel Mixtures, Micrographs of.....	651
Car Wheel Mixtures, Results of Tests of.....	649
Car Wheel Mixtures, Summary of Tests on.....	662
Car Wheel Mixtures, Tabular Data on Tests of.....	653
Car Wheels, Discussion of the Effects of Different Mixtures on the Strength of Chilled.....	691
Car Wheels, Interlacing of Chill in.....	692
Car Wheels, The Effect of Different Mixtures on the Strength of Chilled .....	648

PAGE	
Carbides of Iron, Composition of.....	631
Carbon Absorbed from Fuel in Cupola Melting.....	577
Carbon, Determination of Fixed, in Coke.....	702
Carbon in Coke, Effects of, When Melting Semi-Steel.....	610
Cast Borings, Melting of, in Cupolas.....	633
Cast Iron and Water, Comparison of Expansion of.....	624
Cast Iron Containers for Melting Borings.....	638
Cast Iron, Effect of Phosphorus on Expansion and Contraction of..	628
Cast Iron, Mechanism of the Expansion of.....	626
Cast Iron, Nature of.....	624
Cast Iron, Recalescence of.....	630
Cast Iron Scrap, Specifications for.....	277
Cast Iron, The Thermal Reactions of.....	623
Cast Steel, Alumina in .....	446
Castings, Acid vs. Basic Steel for.....	427
Castings, Airbrake, of Semi-Steel.....	586
Castings, Alloy Steel .....	459
Castings, Basic Steel, From Acid Scrap.....	432
Castings, Gray Iron, Effect of Silicon on Shrinkage of.....	619
Castings, Gray Iron, Gating of.....	235
Castings, Gray Iron, Shrinkage Tests of.....	618
Castings, Influence of Gating on.....	235
Castings, Light, Advantages of Match-Plates for Molding.....	620
Castings, Malleable Iron—See Malleable Iron Castings	
Castings, Malleable Iron, for Car Trucks.....	492
Castings, Malleable Iron, Gating of.....	239
Castings, Non-Ferrous Metal, Gating of.....	251
Castings, Semi-Steel, Micrographic Analyses of.....	594
Castings, Semi-Steel, Strength of.....	591
Castings, Steel, Discussion of the Theory and Practice of Gating and Heading .....	488
Castings, Steel, Gating of.....	247
Characteristics of Alumina Inclusions in Rolled Steel.....	442
Charging Large Air Furnace, Method of.....	526
Chart Showing Fluctuations in Membership from 1896 to 1916.....	89
Cheaper Materials, Discussion of the Use of.....	536
Cheaper Materials, The Use of.....	530
Chemical Properties of Manganese Steel.....	409
Chemist's Point of View on Semi-Steel.....	597
Chill in Car Wheels, Interlacing of.....	692
Chilled Car Wheel Mixtures, Effect of Coke on.....	692
Chilled Car Wheel Mixtures, Effect of High Phosphorus on.....	691
Chilled Car Wheels, Discussion of the Effect of Different Mixtures on the Strength of.....	691
Chilled Car Wheels, Effects of Different Mixtures on the Strength of	648

	PAGE
Chilled Car Wheels, Interlacing of Chill in.....	692
Cleaning Castings in Continuous Foundries.....	551
Cleaning Castings on the Unit System.....	548
Cleaning Malleable Castings .....	553
Cleaning Manganese Steel Castings.....	424
Cleaning Room Equipment, Use of Motor Drive in.....	547
Cleaning Room Layout, Typical for a Jobbing Foundry.....	541
Cleaning Room Problems, How Some have been Solved.....	539
Cleaning Stove-Plate .....	551
Cleveland, Selection of, as Convention City.....	32
Coke, By-Product, for Melting Semi-Steel.....	611
Coke, Determination of Ash in.....	699
Coke, Determination of Fixed Carbon in.....	702
Coke, Determination of Moisture in 60-Mesh Sample.....	697
Coke, Determination of Phosphorus in.....	706
Coke, Determination of Sulphur in, by the Eschka Method.....	702
Coke, Determination of Volatile Matter in.....	700
Coke, Effect of Carbon in, When Melting Semi-Steel.....	610
Coke, Effect of, on Car Wheel Mixtures.....	692
Coke in Foundries, Use of By-Product.....	706
Coke, Report of A. F. A. Committee on Standard Methods for Analyzing .....	694
Coke Saved in Melting Semi-Steel.....	589
Coke, Standard Methods for Laboratory Sampling and Analysis of	695
Coke, Total Moisture Determination of.....	696
Collecting Casting Costs.....	100
Colors Recommended for Pattern Parts.....	580
Commercial Side of the Malleable Iron Industry, The.....	501
Committee, A. F. A. Advisory, to the United States Bureau of Standards, Discussion of the Report of.....	561
Committee, A. F. A. Advisory, to the United States Bureau of Standards, Report of .....	558
Committee on Foundry Costs, Report of.....	114
Committee on Foundry Scrap, Report of.....	273
Committee on Safety and Sanitation, Outline of Method of Form- ing Safety Code .....	304
Committee on Specifications for Steel Castings, Report of.....	465
Committee on Standard Methods for Analyzing Coke, Report of...	694
Comparison of the Properties of Open-Hearth and Basic Steel Castings .....	431
Conference Board on Training of Apprentices, Report of the A. F. A. Representatives on.....	134
Continuous Foundries, Cleaning Castings in.....	551
Convention City, Selection of Cleveland as .....	32
Conversion Cost of Electric Steel.....	317
Converter and Electric Steel Compared.....	335

PAGE	
Converter Steel Scrap, Specifications for.....	284
Co-operation Between the Engineer and the Gray Iron Foundry....	208
Co-operation Between the Engineer and the Malleable Iron Foundry	221
Co-operation Between the Engineer and the Non-Ferrous Metal Foundry .....	224
Co-operation Between the Engineer and the Steel Foundry.....	213
Co-operation, What it Really Means.....	209
Core and Skin of Malleable Iron, Comparison of Strength of.....	517
Core Prints, Standard System for.....	581
Core Sand, Reclamation of.....	564
Cost of Briquetting Borings for Cupola Melting.....	641
Cost of Melting in Electric Steel Furnace.....	363
Cost of Metal.....	101
Cost of Production of Electric Steel.....	317
Cost of Refining in Electric Steel Furnace.....	363
Costs, Foundry, Discussion of.....	106
Costs, Foundry, Principles of.....	94
Costs, Foundry, Report of A. F. A. Committee on.....	114
Costs, Method of Collecting.....	100
Costs, Pattern, The Proper Charges for.....	102
Costs, Report of A. F. A. Committee on Foundry.....	114
Costs, Summary of .....	103
Course in Foundry Practice at Pratt Institute.....	185
Cracks in Steel Castings, Cause of.....	375
Cranes, Use of, in Charging Air Furnaces.....	527
Cross-Head, Steel, Method of Gating.....	482
Crucible Steel Scrap, Specifications for.....	285
Cupola Melting, Carbon Absorbed from Fuel in.....	587
Cupola Melting, Oxidizing of Steel Scrap in.....	588
Cupola Metal, Refining of, in Electric Furnace.....	367
Cupola Mixture, All-Scrap, Analysis of.....	534
Cupola Mixture Containing Steel Scrap.....	535
Cupola Operation, Slagging Practice in.....	620
Cupola Operations, Discussion of the Use of Borings in.....	633
Cupola Operations, The Use of Borings in.....	633
Cupola Steel, A Metallurgical Impossibility.....	592
Cylindrical Steel Castings, Method of Gating.....	477
Definition of Alloy Steel.....	460
Definition of Semi-Steel.....	584
Deoxidizing Metal in the Electric Furnace.....	356

	PAGE
Deoxidizing Possibilities of the Electric Steel Furnace.....	330
Designing Steel Castings, Troubles in.....	218
Details of Negotiations with Exhibition Co.....	26
Determination of Ash in Coke.....	699
Determination of Fixed Carbon in Coke.....	702
Determination of Phosphorus in Coke.....	706
Determination of Sulphur in Coke by the Eschka Method.....	702
Determination of Volatile Matter in Coke.....	700
Die Steel Castings, Effect of Vanadium in.....	462
Dimensions of a 25-Ton Air Furnace.....	523
Disadvantages and Advantages of Electric Steel for Steel Castings.....	353
Discussion of Acid vs. Basic Steel for Castings.....	434
Discussion of Electric Furnace Practice in the Manufacture of Steel Castings .....	333
Discussion of Foundry Costs .....	106
Discussion of Gronwall-Dixon Electric Furnace.....	369
Discussion of Profit-Sharing .....	127
Discussion of Proposed A. F. A. Safety Code.....	303
Discussion of Proposed A. F. A. Safety Code by Sections.....	306
Discussion of Semi-Steel .....	607
Discussion of the Commercial Side of the Malleable Iron Industry.	503
Discussion of the Effects of Different Mixtures on the Strength of Chilled Car Wheels .....	691
Discussion of the Electric Furnace in the Foundry.....	357
Discussion of the Ideal Electric Furnace for the Steel Foundry....	326
Discussion of the Normal Fracture of Good Malleable Iron.....	513
Discussion of the Presence of Alumina in Steel.....	458
Discussion of the Report of the A. F. A. Advisory Committee to the United States Bureau of Standards.....	561
Discussion of the Report of the A. F. A. Committee on Foundry Costs .....	116
Discussion of the Report of the A. F. A. Committee on Foundry Scrap .....	288
Discussion of the Report of the A. F. A. Representatives on Con- ference Board on Training of Apprentices.....	136
Discussion of the Results of Closer Co-operation Between the En- gineer and the Foundry.....	231
Discussion of the Significance of the Fire Waste.....	206
Discussion of the Theory and Practice of Gating and Heading Steel Castings .....	488
Discussion of the 25-Ton Air Furnace.....	524
Discussion of the Use of Borings in Cupola Operations.....	633
Discussion of Use of By-Product Coke in Foundries.....	711
Discussion of the Use of Cheaper Material.....	536

	PAGE
Discussion of the Use of Titanium in the Manufacture of Steel Castings .....	389
Discussion of the Use to Which Malleable Iron Castings can be Applied in Car Construction .....	497
Discussion of Waste Foundry Sand.....	569
Distribution of Labor Charges .....	96
Distribution of Savings Under Profit Sharing Plan.....	125
Dry Cleaning Foundry Sand.....	567
Effects of Different Mixtures on the Strength of Chilled Car Wheels	648
Elastic Limit, What is.....	228
Electric and Converter Steel Compared.....	335
Electric Furnace, Deoxidizing Metal in the.....	356
Electric Furnace for Steel Castings, Advantages and Disadvantages of .....	333
Electric Furnace for the Steel Foundry, Operation of.....	327
Electric Furnace Gronwall-Dixon .....	359
Electric Furnace, Gronwall-Dixon, Discussion of.....	369
Electric Furnacé in the Foundry, The.....	352
Electric Furnace in the Foundry, The, Discussion of.....	357
